

For many of us in rural America, XM is our only viable radio link. I urge you not to take these valuable services away from us! If the NAB has problems with XM and Sirius, let it develop something that is more attractive to the consuming public, as opposed to letting corporate greed stifle competition, ingenuity, and alternative sources of entertainment and information . I stand with those who oppose the NAB's petition 04-160 and urge you to do the same!
